### Day Summer Skills Workshop

Our fourth quarter opened with creativity and purpose. Participants engaged in hands-on practical sessions using eco-friendly materials to produce: Hairbands Hair clips and Bridal hand fans. A representative from the Ministry of Education joined us to inspire the participants, encouraging skill acquisition, creativity, and confidence as tools for independence and growth. The second day focused on teamwork, expression, and joy. Activities included: Group presentations of completed products, Distribution of school backpacks with Fun games and interactive bonding sessions. The day reinforced that learning is most powerful when it is inclusive and joyful.

Learning Together, Leading Change Across Africa

Our founder, Ifeoluwa, represented the organization at the African DRF Pair and Collective Learning Convening for Grantees and Organizations of Persons with Disabilities (OPDs).

Theme: Learning Together, Leading Change: Advancing Disability Rights in Africa.”

The convening was organized by the Disability Rights Fund (DRF), a grant-making organization supporting grassroots, national, and regional disability organizations.

This experience strengthened our advocacy skills, partnerships, and continental perspective on disability rights.
